

City of Angels Rebate Program

The City of Angels is committed to helping customers use less water. As part of that commitment, the City is offering rebates on smart irrigation controllers, high-efficiency toilets, high efficiency clothes washers and irrigation upgrades. We encourage customers to fill out the Water Conservation Rebate Program application and let us help you upgrade your home today!

Terms and conditions: All rebates will be posted as a credit adjustment on the service account number entered on the application. The credit reflected on your billing statement will serve as confirmation that your rebate has been approved. Please allow 4-to-6 weeks for your rebate to be processed. This program is designed to provide limited financial assistance to the City of Angels customers wishing to install water efficiency devices. The City of Angels reserves the right to deny any application that does not meet the requirements outlined in the application and cannot guarantee that the installation of covered devices will result in lower utility bills. The City of Angels is not responsible for any claimed or actual damages or losses of any kind that occurs to any person, or real or personal property, as a result of this program. The City of Angels reserves the right to inspect, and/or verify onsite, the installation of any covered device submitted for a rebate under this program. Terms and conditions can change at any time.

Instructions: Attach a copy of your dated sales receipt showing the device and price. Covered devices are eligible for up to a combined \$150 maximum rebate, if purchased on or after 07/15/15. Rebates are limited to one rebate per item per water service account (with the exception of toilets) on a first-come, first-served basis. New construction is not eligible for any rebates. Follow these specifications when selecting a water efficient device to ensure rebate eligibility.

You might also be eligible for rebates through PG&E at http://www.pge.com/includes/docs/pdfs/shared/saveenergymoney/rebates/ce_residential_rebate_catalog.pdf
