South Highway 49, CITY OF ANGELS

11/5/2023

BOIL WATER NOTICE

Boil Your Water Before Drinking or Food Preparation to Avoid Illness

Due to a fire hydrant repair, which will occurred on 12/5/2023, the State Water Resources Control Board, Division of Drinking Water, the County Health Department, and the City of Angels Water System are advising residents of Angels Camp in the affected area to only use boiled tap water or bottled water for drinking and cooking purposes as a safety precaution to avoid stomach or intestinal illness. The affected area includes: Sonora Street, S Hwy 49, Ramorini Lane Centennial Road and Martina Street.

We will inform you when tests show that water is safe to drink, and you no longer need to boil your water. We anticipate resolving the problem within 2- 3 days.

If you have questions about other uses of tap water, such as bathing and dish washing, please call your water system or read this guidance:

<https://www.cdc.gov/healthywater/emergency/dwa-comm-toolbox/before/tools/What-to-Do-During-a-Boil-Water-Advisory.docx>

Do not drink the water without boiling it first

- Boil all water for one (1) minute (rolling boil).
- Let water cool before drinking.
- Use boiled or bottled water for drinking, brushing teeth, and food preparation until further notice.
- Boiling water kills bacteria and other organisms in the water.

If you are unable to boil your water:

Household unscented liquid bleach

- For clear water, use 8 drops (1/8 tspn.) of bleach for 1 gallon of water. For cloudy water, filter through a clean cloth and use 16 drops (1/4 tspn.) of bleach for 1 gallon of water.
- Mix well. Allow to stand for 30 minutes before using.
- Water may taste or smell like chlorine. This means disinfection has occurred.

Water disinfection tablets

- Please follow the manufacturer's instructions.

If you are concerned about your health or the health of a family member, contact your health care provider or Calaveras County Public Health at 209-754-6460.
